

Capstone Election Process 🎓 📦 🇷🇺

1 or 2 sentence summaries submitted and displayed

Bridge will eliminate non-appropriate ideas 🚫 ⭐

NSFW - srsly!? 🤔

too ambitious: not enough time to code in 7 weeks

content irrelevant: more appropriate for another platform ☕

primary election: informal vote by show of hands 🗳️ 🗳️

general election: vote by secret ballot for most upvoted ideas 🗳️ 🗳️

put your name on it and rank your preferences

the bridge then selects teams based on voting

All the Data 🤖

if your idea requires a dataset, be prepared to present it 📊 📊 📊 📊

we're open minded on datasets subject to the following requirements:

free: the free tier must be sufficient to survive a battery of unit tests

documentation: always read the documentation! 🌈

JSON: XML is considered only as a last resort, usually eliminated same for CSV 📄

What Makes a Good Idea 💡

fun: you're going to spend 60 hours a week on this! 🍷

semi-original: take an idea and put your own personality into it

sharable: something you can explain to mom with a smile 😂
